Marital status	Unmarried
E-mail	purvapurani@gmail.com
Contact Number	+91-9724334158
Current location	Vadodara
Languages	English, Gujarati, Hindi.

## CAREER OBJECTIVE:

I intend to associate myself with an organization where my knowledge and skills can be put to a productive use and where my potential can be realized and developed through exposure to challenging work environment.

## WORK EXPERIENCE:

- 3.4 years of working experience in frontend technologies at Investis Corporate Communications where I joined right after graduating in June 2015.
- Currently working as team leader since February 2018 at Investis Corporate Communications.
- I have worked on **HTML5, CSS3, JavaScript/jQuery** and various other jQuery plugins as well as have worked on the company's data charting product build on **Angular**.
- During my tenure at Investis, I have built a lot of technically challenging websites for some very well-known clients. I got selected to build the corporate website for the company's biggest European client **OSRAM** just after 3 months of joining as a fresher. After completion of that project, I worked in USA shift (night shift) for 4 months and built the corporate website for the company's biggest American client **Estée Lauder** and was later selected as a Team lead candidate. Then got a chance to work on the corporate website for **Rolls Royce**, the company's biggest and most challenging client.
- Underwent 1-year management training under mPower training solutions

conducted for Team leads and Project managers at Investis.

- Received high appreciation for my managerial skills, due to which I was the youngest employee to receive management training just after a year of working with the company as well as got promoted to team leader after just 2.5 years of joining.
- I have been working as a team leader since February 2018, during which I got to manage my team as well as some very important projects like Rolls-Royce, ArcelorMittal and Phoenix Life to name a few. Based on my performance I got offered to manage the technical multimedia team of the company.
- Provided technical training to new trainees as well as colleagues across the floor.
- Other than this, I actively participated in the company's annual function as well as got appreciation for participating in various singing competitions.

### **Technologies & languages experienced:**

- HTML5, SASS, CSS3, Bootstrap, JavaScript, jQuery
- I have a basic knowledge of **Angular** but I haven't received an opportunity to work on it much which I am most looking forward to.
- Tortoise SVN, FileZilla FTP, Dreamweaver, Visual studio code, Brackets, JIRA, Mantis, Confluence, Photoshop, Video, audio and image editing using various Adobe software, Sitecore CMS

### **Project experience:**

- Built websites which are SEO friendly and accessibility compliant using the customized Sitecore CMS.
- Built fully parallax website using various jQuery plugins.
- Built complex maps using Google map API.
- SVG interactive maps and timelines.
- Worked with Social media APIs to pull feeds via xml/json
- Style and modify video players by fetching data from Brightcove API.
- Basic tools enhancement using Angular.
- Few complex websites built:
  - **Rolls-Royce corporate website:** <https://www.rolls-royce.com/>
    - Fully modular website with parallax functionality. Contains global tagging system for managing stories across the website. Pulling data from Stories page of website to different sections based on the tagging via Ajax requests.
  - **Rolls-Royce Careers website:** <http://careers.rolls-royce.com>
    - Taleo job feed integration and updates. Fully modular. Pulling

stories data from the corporate website based on the tagging system using Ajax cross domain request. JavaScript based IP redirection. Fully modular website.

- **JKX Oil & Gas website**
  - Parallax website built using Fullpage JS and scroll-magic plugin.
- **Leaseplan Annual report:**  
<https://www.leaseplan.com/corporate/investors/annual-report-2017>
  - Parallax interactive report with custom animations and interactive elements including SVG map
- **Anglo-American AR:**  
<http://www.angloamerican.com/investors/annual-reporting>
  - Customized slider using Swiper js and Ajax to show data in an interactive manner.
- **Estee Lauder corporate website:** <http://www.elcompanies.com/>
- **Osram corporate website:** <https://www.osram-group.com/>
  - Content manipulation based on career choice and redirection based on country the user belongs to. Ajax based stories filter page.

## COLLEGE PROJECTS

- CRM system for a chemical based product manufacturing industry using **C#.net and SQLite**
- Attendance management **Android** application

**ACADEMICS:**

Course	School / College	Board / University	Year Of Passing	Class	Percentage
B.E. CSE	Babaria Institute of Technology	GTU	2014- 2015	<b>Distinction</b>	8.0 CGPA
